JUNE 2024

Department Heads

Executive Director-Jacki Picard
Nicci Melton - Business Office Manager
Sandy Brown - Resident Program Director
Roger Dishman - Director of Plant Operations
Shawn Latta - Dining Services Director
Janice Eagles, LPN - Assisted Living Director
Alyssa Salisbury - Sales Director

Jacki Picard comes with a wealth of experience in senior living. She has operated as an Executive Director, operations specialist and more. Jacki's love for the residents and staff is visible! We are so excited to have her join us as the Interim Executive Director here at Lake Wylie.

A Sticky Summertime Treat

As the clouds float above the crowds at a carnival or ballgame, down below are people of all ages happily enjoying the fluffy, melt-in-your-mouth confection known as cotton candy. Spin through these fun facts about the sticky stuff:

- Made of pure sugar, cotton candy isn't great for your teeth ... yet it was invented by a dentist! Dr. William Morrison co-created a sugar-spinning machine with candymaker John C. Wharton in 1897. They called their confection "fairy floss."
- In many countries, it's still called fairy floss or candy floss. In the Netherlands, they say sugar spider, and the French call it papa's beard.
- Each fine thread of cotton candy is thinner than a human hair. The strands are made by melting sugar and forcing it through a screen of tiny holes. Modern machines spin the sugar strands thousands of revolutions per minute.
- The treat was first introduced to a wide audience at the St. Louis World's Fair in 1904, where it sold for 25 cents a box.
- In the U.S., cotton candy is usually one of two artificially created flavors: blue raspberry and pink vanilla.
- An amusement park in Turkey holds the world record for making the longest spool of cotton candy. It took 6 hours and 70 staff members to make the confection, which measured over 4,500 feet long.
- Have you tried Cotton Candy grapes? A hybrid of two other grape varieties, the fruit's natural sweetness is compared to the flavor of cotton candy.

JUNE 2024

Craft: Smiling Sunbeam

Materials:

• Paper plate

• Yellow tissue paper

• Glue stick

• Scissors

• Orange and yellow construction paper

• Black marker

Directions:

Place the paper plate facedown in front of you. Tear the yellow tissue paper into medium-sized pieces. With the glue stick, apply glue all over the back of the paper plate. Apply tissue paper pieces to the plate, overlapping some pieces as you go, until the entire surface of the plate is covered. Cut a sheet of orange construction paper into several long strips. Repeat with a sheet of yellow paper. Flip the paper plate over with the blank side up. Use the glue stick to attach the strips of paper around the edge of the plate to make the rays of the sun, alternating orange and yellow. Flip the plate back over and draw a face on the sun with the black marker. Now you're ready to welcome summer!

“When the sun is shining I can do anything; no mountain is too high, no trouble too difficult.”

—Wilma Rudolph

Congratulations on this outstanding achievement! We're proud to have you on our team, and your exemplary performance has earned you the Employee of the Month award. Well done! Congratulations on being named Employee of the Month, William Burris! On his free time he enjoys lying on the beach and working outside in his garden.

At the Beach

The combination of sand and surf creates scenic coastlines across the world. Relax, unwind and find out what makes some beaches fascinating and fantastic.

- Beaches became popular destinations during the 1700s. Doctors often prescribed a visit to the seashore to improve a person's health.
- Most beach sand is tan or white in color, but there are beaches with sand that's black, green, pink, purple and red.
- Brazil is home to the world's longest beach, Casino Beach, which stretches 150 miles long.
- You'll find the "shark tooth capital of the world" at Venice Beach in Florida. Every year, hundreds of fossilized teeth from prehistoric sharks wash ashore there.
- At 58 feet high, the world's tallest sandcastle was built on a German beach in 2019.
- Tides have turned California's Glass Beach from trash to treasure. Its shore is covered with polished pebbles of colorful sea glass, made from garbage tossed into the ocean long ago.
- A day at the beach or the spa? You can have both at New Zealand's Hot Water Beach, where the water underneath the beach heats up to 150 degrees. Beachgoers dig holes in the sand to soak in their own hot tubs.
- It's the wildlife that makes some beaches unique. Sea turtles, penguins, flamingos, monkeys and pigs are just some of the animals that roam the shores along with human visitors.
